

Quake25

Celebrating a Quarter Century

What is Quake25?

This is an ongoing fan celebration leading up to the 25th anniversary of the release of the game on **2021-6-22**.

The Goal

We're hoping to bring together as many online Quake communities as possible "under one roof" to help publicize fan events and creations centered around the anniversary.

Communities for every Quake-related IP are welcome to join in!

Quake
Quake II
Quake III Arena
Quake 4
Enemy Territory: Quake Wars
Quake Live
Quake Champions

Where is Quake25?

Communication *between* the different Quake communities will be available in the **#quake25** channel on the [Quake Mapping Discord](#).

If you don't use Discord, we have you covered with a [discussion thread](#) over at **func_msgboard**.

Celebrations

This part is up to you!

There's no *official* project. You are encouraged to celebrate the anniversary any way you want.

Compete, stream, map, mod, make music, artwork or anything Quake related you can dream up.

There are already a few large-scale “secret” mapping projects and at least one public project already underway. There will be a lot of content for Quake fans leading up to the anniversary.

Communities

If you run (or are a member of) a Quake community, we encourage you to come to **#quake25** in the **Quake Mapping Discord** and share information, news and resources for *your* particular celebration.

Individuals who want to share the same, are welcome as well!

We're hoping to have a volunteer repost this same info over on **func_msgboard** as needed, so those not on Discord can stay informed.

[Here's a link](#) to that thread.

The Countdown

quake25.com will be the main place for news and links to different celebrations starting 25 days before the anniversary on **May 28th**.

We're happy to make a news post about your celebration activities.

If you aren't on func or Discord, email quakemapping@gmail.com with your "press release" style post.

Please keep the info around 500 words or less and include any relevant links. Also include some kind of image or artwork to go along with the post.

Twitter

Beside email, Discord, func_msgboard and [Quake25.com](https://quake25.com), we've set up [@quake25th](https://twitter.com/quake25th) on Twitter.

Please follow and mention when you have something to share and we'll help get the word out!
